

Days of God: Part I

By Dr. Yi Victor Wang

March 2, 2025

Objectives

- Beginning *days*
- Current *days*
- End *days*

Objectives

- Beginning *days*
- Current *days*
- End *days*

How old is our world/universe?

Genesis 1: 3-5

- And God said, “Let there be light,” and there was light. God saw that the light was good, and he separated the light from the darkness. God called the light “**DAY**,” and the darkness he called “night.” and there was evening, and there was **MORNING**—the first **DAY**.

Genesis 1: 14-15

- And God said, “Let there be lights in the vault of the sky to separate the *day* from the night, and let them serve as signs to mark sacred times, and *days* and years, and let them be lights in the vault of the sky to give light on the *earth*.” And it was so.

Genesis 1: 16-19

- God made two great lights—the greater light to govern the **day** and the lesser light to govern the night. He also made the stars. God set them in the vault of the sky to give light on the **earth**, to govern the **day** and the night, and to separate light from darkness. And god saw that it was good. And there was evening, and there was **MORNING**—the fourth **DAY**.

Days can be different from different perspectives

- Mercury: 59 *earth days*
- Venus: 243 *earth days*
- *Earth*: 1 *earth day* (about 24 hours)
- Mars: about 25 hours
- Jupiter: 10 hours
- Saturn: 11 hours
- Uranus: 17 hours
- Neptune: 16 hours

One ***DAY*** of God can be different from one
day of the earth!

Objectives

- Beginning *days*
- Current *days*
- End *days*

Time and *days* pass at different rates for observers
in different environmental conditions

Time dilation in terms of gravitational potential

II Peter 3: 8

- But do not forget this one thing, dear friends: With the Lord a **DAY** is like a thousand years, and a thousand years are like a **DAY**.

What are the implications?

Closing prayer
